

About BLSX Limited

1. Business Model:

BLSX Limited is a leading manufacturing company specialized in manufacturing high quality hoses and rubber-metal components. The company's business model focuses on providing customized solutions for industries like dredging, steel mills, mining, defense, aerospace, heavy machinery, etc. BLSX's model emphasizes on innovation, quality and compliance with international standards to ensure that its products meet the stringent requirements of diverse customers.

The company has built a reputation based on integrity, intelligence, and innovation for over 35 years under the leadership of Mr. Vipul Trivedi.

2. Products & Services:

- **High-quality hoses:** Specially designed for dredging, steel mill, sludge and drainage applications.
- **Rubber-metal parts:** Critical parts for bridges, defense systems, aerospace and various heavy machinery.
- **Innovative Products:** Over 1,500 types of rubber and rubber-metal products including 650 types of top quality hoses.

Recently, BLSX has expanded its services portfolio by engaging in the repair and construction of bridges and viaducts, further emphasizing its commitment to infrastructure development.

3. Subsidiaries and Branches:

BLSX has established its operations with offices in India and the UK, enabling it to serve clients across the globe. The company's presence in these regions is backed by compliance with international standards, as evidenced by numerous ISO certifications.

3. Market Reach and Expansion:

BLSX Limited has a strong market presence in Asia and the Middle East. We have been actively expanding our business activities and market reach by collaborating with renowned organizations in various mega projects.
